

LOGISA: YOUR TRUSTED PARTNER FOR PHARMACEUTICAL PRODUCT MANAGEMENT

Logisa specializes in the management of pharmaceutical products, offering storage and logistics solutions designed to meet the strict regulations of the industry.

Our Services for the Pharmaceutical Industry:

- **Pharmaceutical Product Storage:** We have certified pharmaceutical product storage facilities controlled for temperature, humidity, and other critical environmental parameters for the preservation of medicines.
- **Cold Chain Management:** For temperature-sensitive medicines, we offer complete cold chain management, from receipt to final delivery. Our facilities and processes are designed to ensure product integrity and supply chain security.
- **Quality Control:** We have strict quality control systems in place to ensure traceability and safety of medications. We conduct regular quality checks and maintain a detailed record of the supply chain.
- **Secure Transportation:** We offer specialized transportation services for pharmaceutical products, with refrigerated vehicles and trained personnel to handle medications with care and safety.

Benefits of Choosing Logisa for Your Pharmaceutical Products:

- **Regulatory Compliance:** Our facilities and processes comply with international and national regulations for the storage and management of pharmaceutical products.
- **Guaranteed Quality Control:** Our quality control measures ensure the integrity and safety of your products.
- **Security and Traceability:** We have tracking and traceability systems in place to ensure the security of your products throughout the process.
- **Flexibility and Adaptability:** We offer customized solutions to meet the specific needs of your pharmaceutical company.

**"LOGISA IS YOUR IDEAL PARTNER FOR THE
MANAGEMENT OF PHARMACEUTICAL PRODUCTS,
PROVIDING RELIABLE AND SECURE SOLUTIONS TO
MAINTAIN THE INTEGRITY OF YOUR MEDICINES AND
THE SAFETY OF THE SUPPLY CHAIN"**
