

# MY YEAR IN LOGISSA!

## MY FIRST IMPRESSION

To be honest, I had never been in a warehouse before, so when I started at Logissa, I was surprised by the immensity of the warehouse.

## PICTURE DAY

We took the official Logissa photos and I loved the result of the photochecks.

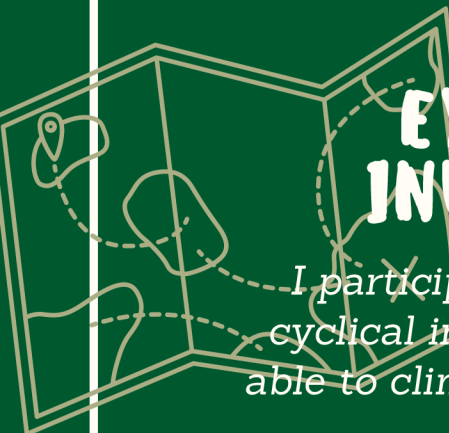

## WORK SATISFACTORILY COMPLETED

We successfully passed the BPDT certification with DIGEMID, a proud moment for our team.

## EXTREME INVENTORY

I participated in the company's cyclical inventory and I was even able to climb into the forklift safety cage!

## SPOOKY FUN

Our team celebrated Halloween with a costume party, and it was amazing to see everyone's creativity.

## THE STAR WAS MISSING (ME)

Unfortunately, I couldn't attend our Christmas gift exchange due to college classes, but it looked like everyone had a great time.

## LOGISSATHON

Our team participated in a hackathon, and the Transport team took home the win. I'm thrilled for them!
