

VIOLENCE AGAINST WOMEN

1 Violence against women

refers to harmful acts directed at women based on their gender. It is a widespread violation of human rights that can take many forms, including:

2 Physical violence

This includes physical abuse like hitting, slapping, or assault. It can occur in domestic settings, in relationships, or by strangers.

3 Sexual violence

This includes rape, sexual assault, forced prostitution, and sexual harassment. It's often used to exert control or power over women

4 Emotional and psychological abuse

This type of violence includes verbal abuse, threats, manipulation, and controlling behavior that harms a woman's mental well-being.

5 Economic violence

This involves controlling a woman's financial resources or preventing her from earning a living, making her dependent on others.
